MARINE ENGINEERING

AND SHIPPING AGE

INDEX TO VOLUME XXVIII

JANUARY TO DECEMBER, 1923

PUBLISHED BY

SIMMONS-BOARDMAN PUBLISHING CO.

30 Church Street, New York, N. Y., U. S. A.

34 Victoria Street, Westminster, S. W. I., London, England

623.05 REMOTE STORAGE INDEX

Note—Illustrated articles are marked with an (*) asterisk, editorials with an (E), letters to the editors with an (L), questions and answers with a (Q), paragraphs with a (P), and news items with an (N).

A

A change of attitude (E).....	255
A direct course is a direct saving. Robert B. Lea	*361
A great loss: Death of President Harding (E)	517
A real opportunity (E).....	650
A real saving (E).....	453
A reflex of the defeat of the ship subsidy bill (E)	322
Ackerson, J. L.: Selection of best kind of propelling machinery	167
Adda, Passenger motorship	*31
Additional notes on American shipyard apprenticeships, evening schools and scholarships. C. F. Bailey.....	747
Admiral Bettolo, Italian steamship launched (N)	579
Admiralty decisions, Current. C. B. Gill, 309, 337, 375, 441, ...	579
Aeroplane view of United States aeroplane carrier Langley (photograph).....	*558
Agamemnon and Mt. Vernon (E).....	194
and Mount Vernon, Disposition of ex-German transatlantic steamships....	*591
Air gun: Jenkins Bros.....	46
Airplane carriers building for U. S. navy, Powerful	*29
lands on deck of United States warship (photograph)	*16
Air pump for marine service, Radojet: C. H. Wheeler Mfg. Co.....	*691
Albert Ballin, Passenger steamship.....	*48
Ballin, Twin screw turbine steamer. E. Foerster	*457
Alexander Hamilton, Hudson River Day Line steamer (N).....	715
Allegheny and Berkshire, Passenger and freight steamships	*329
America becomes largest cabin ship afloat. Reconditioning and conversion of steamship (N)	247
saves 1,400 tons of coal, steamship.....	*73
will fight for place on the high seas. "Old Scotch"	416
American Balsa Company, Inc.: Nesting lifeboat	*34
Welin marine type releasing gear.....	*215
American Brass Company: New lead covered cable	738
American Engineering Standards Committee (P)	53
American Legion pledges aid for up-building of merchant marine.....	695
American Marine Association announces plan for marine show (N).....	*787
elects officers for the coming year.....	249
spring banquet (N).....	721
American marine congress (E).....	*387, 249
adopts resolutions outlining constructive policy for merchant marine.....	*729
called (N)	444
grows bigger and bigger.....	522
Secretary Hoover to preside at	589
to become a permanent body (N).....	788
to feature Marine Week of 1923.....	*681
American Marine Standards Committee meets	*256
ready for action.....	411
American passenger ships setting a high standard. James Swan.....	*654
American ships carry less than 25 percent of overseas commerce of the United States	652
American Society of Mechanical Engineers, Spring meeting (P).....	308
American Strombos Company, Inc.: Air-driven marine signal.....	*119
American trade needs American ships. E. C. Plummer.....	*651
American Wiremold Company: New conduit for electric wiring.....	*28
An imperative demand (E).....	517
Analysis of claims of the electric drive over the geared drive. J. C. Shaw.....	*417
Anchors and chain cables, Book on (Q).....	505
and chain, Materials for (Q).....	505
Ann Arbor car ferry No. 3 lengthened.....	*207
Annn, R. E.: Curious incidents in the careers of hoodoo ships.....	74
Anti-rolling tanks, New System of Frahm.....	*48
Applications of arc welding to ship construction. E. H. Ewertz, ...	*420, 480, 549, 625, 774

Apprenticeships, evening schools and scholarships, Additional notes on American shipyard. C. F. Bailey.....	747
Arc welder for ship work and new galley range: Todd Shipyards Corporation.....	*740
welding to ship construction, Applications of. E. H. Ewertz, ...	*420, 480, 549, 625, 774
Arizona, Motorship	*34
Army launches first all-electric dredges....	763
Ash, influence of in coal on boiler efficiency (Q)	784
Asphalt decking, New: James Coffey Engineering Corporation	736
Association, North Atlantic Ports (N).....	187
Atlantic Coast Shipbuilders' Association, Removal of (P).....	503
Coast Shipbuilders to meet on May 14 (N)	248
Transport passenger liner Minnewaska.....	*613
Waterways Association, Convention of (N)	642
Automatic control for cargo winches: General Electric Company.....	736
feed water regulator: Babcock & Wilcox Company	*734
steering. E. T. Sederholm (L).....	311
steering, Wake system of. R. H. Rogers	*173
Automobile-carry fleet developed on Great Lakes. A. C. Jackson.....	*496
Australian government shipping venture costly (N)	645
Auxiliary Diesel yacht Hussar.....	*341
sailing houseboat Moby Dick launched (P)	456
Auxiliaries, electric, an economic necessity. Walter Thau	*276
Aviation, Comments on naval and commercial. E. S. Land.....	748

B

Babcock & Wilcox Company: Automatic feed water regulator.....	*734
Concentration salinity indicator.....	*41
Mechanical atomizing oil burner.....	*690
Mechanical oil burner.....	*556
Oil burner for Scotch boilers.....	*117
Bailey, C. F.: Additional notes on American shipyard apprenticeships, evening schools and scholarships.....	747
Bake oven, Westinghouse electric.....	*619
Balance, Improved sash: O. M. Edwards Company, Inc.	742
Ballast pumping systems developed, New. Balsa-Welin nesting lifeboat.....	*34
Barge contract, American Bridge Company (N)	712
designed for excavation work, derrick..	*211
Self-discharging (P)	524
Barges, Electric contract for Diesel (N).....	189
for Government, Six Wheel (N).....	641
for Portland, Ore., Six steel (N).....	643
Three S. O. Diesel oil (N).....	712
Barrels of oil per knot (Q).....	637
Basic design problem (Q).....	376, 505
Bates, James L.: Efficient ships are those best meeting requirements.....	474
Battle destroyer No. 16, Japanese (photograph)	*104
Battleship Colorado, U. S.	*605
Indiana partially completed (photograph)	*601
West Virginia goes into commission....	*783
Bearing metal introduced to marine service	426
Bearings, Rubber surface cutless: B. F. Goodrich Company	*692
Belgenland on her maiden voyage, Passenger steamship (N).....	*315
Belgian mail ships for service to Africa. Bennett, E. C.: Deadweight.....	*209
Berkshire launched, Steamship (N).....	76
Bethlehem Shipbuilding Corporation: Furnace front for Dahl oil burner.....	249
Plant mills direction indicator.....	*360
Self-contained oil pumping outfit.....	*738
Biles, Sir John H.: Stability of large ships	*693
Bituminous coatings for shipbuilding purposes. H. H. Thayer.....	*111
Blacker Engineering Company: Power driven hammer	369
Block coefficient, Formula for (Q).....	*491
coefficients and proportions of merchant steamships. W. J. Lovett.....	637
Blocks, ropes and chains for shipbuilding purposes. H. H. Thayer.....	115

Boiler and engine room, Tuning up the. William Bunker	*281, 365
efficiency, Influence of ash in coal on (Q)	784
Boiler feed, Salt water unsuitable for (Q)	505
gives 85 percent efficiency, Oil-fired Scotch. C. J. Jefferson.....	*615
Improved Foster watertube.....	*352
requirements for marine engine (Q).....	184
room economies, Modern, J. J. Nelis....	271
Special working pressure of Scotch (Q).....	184
water gage glass, Strength of (Q).....	784
Boilers, Care and upkeep of marine watertube. A. Ross Mackay.....	433
in France, Testing marine. A. M. Thachara	234
Book on anchors and chain cables (Q).....	505
"Bordereaux": Developments in marine insurance.....	9, 78, 147, 205, 307, 373, 436, 501, 568, 635, 708, 781
Bottom compositions. H. H. Thayer.....	570
Bow wave length and contour, Formula for (Q)	442
Brake, All-steel power press: Cincinnati Shaper Company	*100
British-built Diesel electric ship completes trials, First. Special London Correspondent	*706
British marine oil engines developed. Special London Correspondent.....	*566
shipbuilding lowest in 30 years.....	216
shipbuilding outlook much brighter. W. H. Wendon	145
shipping and shipbuilding developments. W. H. Wendon.....	371
shipping and shipbuilding in 1922. W. H. Wendon	14
Shipping Exhibition (N).....	248, 645
shipowners face keen competition abroad. W. H. Wendon.....	704
shipyards get string of new contracts. W. H. Wendon.....	303
Brown Instrument Company: Salinity meters	*744
Bulbous bow on resistance, Influence of the. D. W. Taylor.....	*540
Bunker oil, System for handling from storage: Row and Davis Engineers, Inc.	*49
Bunker, William: Tuning up the engine and boiler room.....	*281, 365
Bureau of Navigation report for August (P)	601, 641

C

Cable, New lead covered: American Brass Company	738
ship Marie Louise Mackay, New.....	*18
ship Store Nordiske, New oil-fired (photograph)	*21
steamer Dickenson launched (P).....	174
Calculations for cooling surface of condenser (Q)	121
Canal at New Orleans, New inner-harbor navigation (P)	271
Car ferry for Missouri-Illinois railroad.....	*162
ferry George H. Walker goes into service (N)	715
ferry launched on Ohio river, Mammoth.....	*338
Care and upkeep of marine water-tube boilers. A. Ross Mackay.....	433
Cargo conveyor, Telescopic.....	*604
motorship Arizona	*34
winches, Automatic control for: General Electric Company	736
Cargoes increasing, Intercoastal.....	539
Cast iron couplings, Shrinking on steel shafts (Q)	120
Castings for ships, Manufacture of heavy steel. H. P. Frear.....	754
Chain cable, Life of (Q).....	573
Chains, ropes and blocks for shipbuilding purposes. H. H. Thayer.....	43
Chamber of Commerce meeting (P).....	300
of the United States, Annual meeting of (N)	248
opposes Government operation of ships (N)	382
urges Senate to grant Government aid to shipping (E)	2
Chamber of shipping discusses maritime situation. W. H. Wendon.....	200
Chapman, L. B.: Comparison of steamships and converted motorships.....	137
Does an annual saving of \$40,000 interest you?	*197
Effect of stevedoring costs on operating expenses	71

40X457

1101641

Chapman, L. B.—Continued	
Influence of speed on economy of motorships	435
Relative economy of steam and motor vessels	38
Chicago Pneumatic Tool Company: Flexible couplings for direct motor drive compressors	*230
Chief engineers on Shipping Board honor list (N)	640
Cincinnati Shaper Company: All-steel power press brake	*100
City of Chattanooga, Passenger steamer of Nagpur, Passenger and cargo steamship	*697
Clearances for pins and journals (Q)	*81
Clermont, Replica of (photograph)	442
Cleveland bought by United American Lines, Steamship (N)	*234
to be converted to an oil burner (P)	510
Clipper stem, Why naval vessels have a (Q)	556
Clyde Line steamers, Bids for (N)	310
Line, Two Type "B" steamers for (N)	509
CO ₂ recorders, Use of (Q)	577
Coast service, United American Lines inaugurate new	573
Coastwise steamships Alleghany and Berkshire	520
Coefficient, Length for "full" (Q)	*329
Coen Company: Mechanical oil burner with self-seating holder	506
Coffey Engineering Corporation, James A.: Fiber flooring for ship decks	*694
New Asphalt decking	*114
Colorado nearing completion, U. S. battleship (photograph)	736
the World's mightiest superdreadnaught (photograph)	*241
United States battleship	*565
Combined riveting and welding (E)	605
riveting and welding, N. G. Near (L)	389
riveting and welding, J. W. Owens (L)	574
Comments on aviation—naval and commercial, E. S. Land	710
Committee to cooperate with Department of Commerce (P)	748
Comparison of steamships and converted motorships, L. B. Chapman	728
Comparative fitness of afterbody of submarine destroyer (Q)	137
Competition for ship repair contracts in Europe, W. H. Wendon	709
in overseas shipping met by using efficient ships and propelling machinery, A. S. Hebble	492
Compositions, Bottom, H. H. Thayer	679
Compound engine, Figuring indicated horsepower of (Q)	570
Compressor unit, Motor: Hill Rotors, Inc.	784
Compressors, Flexible couplings for direct motor drive: Chicago Pneumatic Tool Co.	*690
Concentration salinity indicator: Babcock and Wilcox Company	*230
Condenser, Calculations for cooling surface of (Q)	*41
tubes, Failure of W. R. Webster	121
Conduit for electric wiring, New: American Wiremold Company	*771
Congress, American marine	*28
American marine (E)	522
Delaware River district committee, Marine (N)	387, 649, 721
Diesel engine committee organized for Marine (N)	576
frames shipping policy, Marine	575
Secretary Hoover to preside at American marine	*729
to become a permanent body, American Marine (N)	589
to feature Marine Week of 1923, American marine	788
Connecting shackles, Improved: National Malleable Castings Company	*681
Consolidation of war and navy departments proposed (P)	736
Construction, Application of arc welding to ship, E. H. Ewertz	49
Marine work of all classes reported (P)	*420, 480, 549, 629, 428
news, Marine (N)	318, 384, 449, 514, 580, 646, 718, 792
report of Bureau of Navigation to August 1 (N)	641
The trend in Great Lakes ship	*425
Conte Verde, Passenger steamship	*342
Conti, Angelo: What part will motorships play in our shipping?	*671
Contracts, British shipyards get string of new, W. H. Wendon	303
Control station for dredge: Westinghouse Electric & Manufacturing Company	*738
Convention of Atlantic Waterways Association, Annual (N)	642
of Society of Naval Architects and Marine Engineers, Annual	747
Conversion to motorships (P)	204
Conveyor, Telescopic cargo	*604
Cooperation along Atlantic seaboard proposed (E)	67
between owner, builder and operating personnel, Marine Engineer (L)	785
of shipping industry (N)	246
Corsair converted to an oil burner, Steam yacht (N)	576

Cost of operation, Situation demands reduction in, "Old Scotch"	259
of ship repairs, Eads Johnson (L)	506
Couplings, Bibby flexible: Falk Corporation	*742
Course in Gyro Compass for British officers (P)	525
Crandall 4,000-ton railway dry dock	*163
Crane at Boston Army Base, Largest in world (photograph)	*23
Crook shipyard sold (P)	520
Cruiser Omaha, Trial run of	*109
Crux, Motorship	*599
Curious incidents in careers of hoodoo ships, R. E. Annin	74
Current actuated or Flettner rudder	*231

D

Dahl oil burner, Furnace front for	*360
Dalgoma, Sulzer two cycle engine motorship, Our Special London Correspondent	*429
Data sheet: German liner Albert Ballin E. Foerster	462
passenger steamship America	471
passenger steamship President Buchanan	218
steamship Halekale	155
steamships Alleghany and Berkshire	*334
tank-motorship Oljaren	*87
Wilson Line excursion steamers	527
Davis, M. C.: Why Americans pay greater Panama canal tolls	*609
Deadweight, E. C. Bennett	76
Decking, New asphalt: James Coffey Engineering Corporation	736
Defeating its own object (E)	193
Definite shipping policy still under consideration (E)	194
DeLaval Steam Turbine Company: Multistage centrifugal pump	*110
Delaware River district committee of Marine Congress (N)	576
Denby, Edwin: Navy and merchant marine are interdependent	*657
Depreciation of steel ships, Rate of (Q)	637
Depression leads British to urge Government aid, Special English Correspondent	559
"Der Tag" (E)	*2
Derrick barge designed for excavation work, Designing the marine power plant for efficiency, W. B. Flanders	*211
Determining the strength of a hollow shaft and coupling (Q)	*292
Detroit, Official trials of scout cruiser	242
Development in marine boilers, New	431
Developments in marine insurance, "Bordereaux"	*352
9, 78, 147, 205, 307, 373, 436, 501, 568, 635, 708, 781	
Deviation charges (E)	454
Devices shown at the Marine Exposition, New	689
DeWitt Clinton converted to oil burner, Steamer	*415
Diameter of engine shaft (Q)	184
Diamond Power Specialty Co.: Rear end front-operated soot blower	734
Dickenson, Cable supply ship	*92
Diel Manufacturing Company: Gyating electric ceiling fan	*738
Diesel and the future, The, K. H. Donavin (L)	638
auxiliary schooner yacht Hussar IV	602
drive, Conversion of tonnage to (E)	650
electric drive: Trials of motorship Standard Service	*340
electric motorship Twin Ports (N)	*640
electric pine line dredge (N)	*58
electric ship completes trials, First British-built, Special London Correspondent	*706
engine committee organized for Marine Congress (N)	575
engine developments in Great Britain, Special London Correspondent	*164
engine electric ship propulsion, W. H. Wild	169
engine, Improved scavenging: Knudsen Motor Corporation	*692
engine, Knudsen two cycle	*618
engine, North British 2,000 horsepower double acting, Special London Correspondent	*763
engined combination lighter and towboat ordered	70
engined tug displaces steam craft	*30
engines at the marine show (E)	584
engines designed for large liners, Our Special London Correspondent	*363
engines, Europe develops new types of, Special London Correspondent	*599
engines must be developed, Lighter and cheaper, J. F. Nichols	677
oil motors for French fishing fleet (N)	645
pronelled vessels, Possibilities of (N)	381
yacht Hussar, Auxiliary	*341
Direction finder and sounding apparatus for small boats, Submarine: Submarine Signal Corporation	*693
indicator, Plant mills: Bethlehem Shipbuilding Corporation	*738
Directory of exhibiting companies at Marine Exposition	685

Displacement, Measurements for "full" (Q) stability, etc. Methods preferable for calculating (Q)	506
Does an annual saving of \$40,000 interest you? L. B. Chapman	310
Does it pay to have a satisfied crew? J. F. Milliken	*197
Donavin, K. H.: The Diesel and the future (L)	*349
Don't give up the ships (E)	638
Doric, Propelling machinery of passenger steamship	65
Douglas fir in British warships (P)	216
Dredge, Control station for: Westinghouse Electric & Manufacturing Company	503
Diesel electric (N)	*738
Dredges, Army launches first all-electric	*58
Drill for plates, Multiple: Niles-Bement-Pond Company	763
Drydock, A new (P)	*118
at Baltimore, New railway	441
designed for Mexico, Floating (N)	*163
floating, carries 13,000-ton vessel on short voyage	791
floating, Largest in the world ordered, in Tampico, New (N)	*95
opened in Canada, World's largest (N)	*37
Dry docking facilities, Philadelphia lacks (N)	715
Du Brice Marine Motors: Motor for small boat propulsion	791
Duillo, New Italian Steamship (P)	315
Dumana, British motor passenger liner, London Correspondent	*308
Duties of a marine superintendent	230
of a marine superintendent (L)	*305
Dyson's method applied to merchant ship propellers, E. A. Stevens, Jr.	182
	507
	225

E

Eagle-Picker Lead Co.: Notes on sublimed blue lead	170
Fast versus west on the shipping question, C. A. McAllister	68
Eastern Company's new program (N)	380
Steamship Company of Canada, Ten ships for (N)	123
Steamship Line, Passenger steamers for Easton, W. H.: Electric ferryboat Poughkeepsie	*156
Economic operation of ships: Does it pay to have a satisfied crew? J. F. Milliken	*159
Economical ship operation, Effect of the propeller on, E. A. Stevens, Jr.	*349
Economics of transatlantic liners of various lengths, C. E. Petersen	*354
of turbine electric propulsion, W. C. Watson and John Thomas	753, 759
Economies, Engine room and shore: A direct course is a direct saving, R. B. Lea	*273
Modern boiler room, J. J. Nelis	*361
practiced by successful British shipowners, Our British Correspondent	271
Economizer that requires no outlay, An	351
Economy and efficiency (E)	356
in fuel consumption on Government ships (E)	253
in ship repairs, R. W. Morrell	453
in Shipping Board vessels, Fuel, R. D. Gatewood	*343
in steamship operation and management, R. F. Hand	22
of motorships, Influence of speed on, L. B. Chapman	261
of steamships and motorships, Relative, L. B. Chapman	435
Oil burning affords great opportunity for, J. S. Milne	38
Editor of Marine Engineering and Shipping Age, New	286
Edwards Company, Inc., O. M.: Improved sash balance	*519
Effect of joggling frames (Q)	742
of stevedoring costs on operating expenses, L. B. Chapman	709
of the propeller on economical ship operation, E. A. Stevens, Jr.	71
Efficient repair methods adopted by Shipping Board, R. D. Gatewood	*354
ships are those best meeting requirements, J. L. Bates	347
Efficiency and economy in traffic work, H. Sheridan	474
depends on accurate performance records, C. J. Jefferson	*525
designing the marine power plant for, W. B. Flanders	*267
in operation of oil tankers, Notes on, T. J. Smith	*292
in the operation of steamships, D. A. J. Sullivan	*477
of surface propellers (Q)	19
of the boiler, Influence of ash in coal on (Q)	442
Electric and geared turbine drive, W. C. Watson and John Thomas	784
auxiliaries an economic necessity, Walter Thau	557
bake ovens for marine use, Westinghouse Company develops	*276
	*619
